

# Structure Plane

## Information Architecture

The home page will be divided into two sections.

On the menu on top, there will be links to the pages.(Products, Bids, Logout and Cart, once the user is logged in.)

## Interaction Design(IXD)

- The background image has a parallax effect, so the user can experience a nice and smooth transition.
- The Menu Bar on top of the page turn into a hamburger icon, as it would take less space when accessing the page through a mobile
- The Menu bar is fixed on the top on the page at all time
- The Menu Bar has a nice transparent effect
- Each link has a hover effect to change the color of the text.
- Website is responsive
